Surely you did not think you could arrive late and still make your voyage on time. You must make haste and arrive two hours before your flight.

DEPARTMENT PAPERS

Dearest Gentle Reader,

The social season is upon us, and as you well know, if anyone is to divulge the details of society's soirees, it is I. Of note, it has come to this author's attention that a certain holiday to honor each family's patriarch is approaching with haste. I do hope each budding romance in this season should be graced with heirs of their own - should they choose to continue their name.

It is quite apparent, however, that some members of the ton never truly grasped the ways in which one comes to be with child. As an expert in the

Wildfire Awareness Month 🍌 May the 4th Be With You

A long time ago in a galaxy far away...wait no...that can't be right. Wildfires are something we face now, right here in Washington. Let's take a look at the Jedi texts and see what advice they have for us:

-If you have a campfire, be sure to put it out completely with water. Remember; drown it, stir it, feel it (with your hands not the force).

-If you are towing your favorite starfighter, make sure your chains aren't dragging.

-Do NOT fly drones over a wildfire, even at lightspeed. Drones ground our aircraft and disrupt critical firefighting efforts.

Oh, hold on, incoming transmission--"Help us, Washingtonians, you're our only hope (for not setting the state on fire)"

Cariño to our Las Cruces Public Libraries and their Library of Things initiative! 💜

This week, a call was received from someone interested in the Library's Library of Things, particularly the sewing machine. The caller, visiting from El Paso, needed access to a sewing machine ASAP during their stay in town. They were referred to the library by a local quilt shop. Upon arriving at the library, they quickly signed up for a library card and borrowed the sewing machine without d... [See more](#)
